INTRODUCTION

The STATISTICS OF VIRGINIA PUBLIC LIBRARIES AND INSTITUTIONAL LIBRARIES 1987-1988 provides information on public, state supported institutional, and academic libraries in the Commonwealth for the fiscal year ended June 30, 1988. The information on public and state supported institutional libraries was compiled from annual report forms submitted to the Public Library Development Division in the fall of 1988. Information on college and university libraries was kindly supplied by the Council of Higher Education, based on reports submitted to that agency.

Public libraries are arranged in groups by population of the legal service area. Libraries in correctional and mental health/mental retardation institutions are listed alphabetically according to whether the institution serves adults or youth. College and university libraries are listed alphabetically.

If a library did not report a piece of data, an asterisk (*) was used to indicate that. As a result of insufficient data for some libraries, formulas could not be applied. In such cases, a plus sign (+) was used to indicate that.

It is important to note that because of insufficient data for some libraries, columns that add down do not necessarily add across. For example, if a library provided a grand total circulation figure but did not break that total down by outlet, then columns adding down will not necessarily add up to the statewide grand total.

A section on output measures has been added and will continue to be a regular feature of this publication. Statewide totals represent only reporting libraries.

We are pleased to receive suggestions for improvement in order to make this publication more useful. Please contact Peggy D. Rudd in the Public Library Development Division if you have questions or comments.

Published with Library Services and Construction Act (LSCA) Title I funds administered by the Virginia State Library and Archives.
